P45 | DIMMABLE | 2700K | MILKY

INSTALLATION

STEP 1 **Check the specification**

Read the specification first and make sure the service environment matches the specified conditions.

STEP 2 **Confirm the supply**

Confirm the applicable power supply before using the bulb.

STEP 3 **Switch off the power**

Power must be cut off before installation. Make sure the switch is off before connecting to the power supply, to prevent electric shock.

STEP 4 **Fit the bulb**

Screw the bulb into a matching E14 socket.

STEP 5 **Dimming**

Dimmable version: use the bulb only on a compatible dimmer circuit.

STEP 6 **Switch on**

Switch on the power supply and check the light output.

SAFETY NOTICE:

- Read the specification first and make sure the service environment matches the conditions in the specification before using.
- Confirm the applicable power supply before using.
- Make sure the switch is off before connecting to the power supply, to prevent electric shock.
- Operation against the rules may damage your property and even harm your personal safety.
- Dangerous high voltage: non-professionals are not allowed to maintain the product.
- For indoor use only. Keep the bulb away from moisture.
