SURFACE MOUNTING BRACKET

FOR LED TUBE HIGH BAY

USER MANUAL | HOW TO USE

STEP 1 **Prepare the kit**

2 mounting brackets, 4 bolts for the lamp, screws TA4 x 30 mm and plugs Ø8 x 35 mm. Confirm compatibility with the tube model before installation.

STEP 2 **Install the fitting on the lamp**

Install one bracket at each end of the lamp.

STEP 3 **Drill the holes**

Drill holes in the wall or ceiling according to the hole positions of the brackets. Spacing of the fitting holes is 40 mm; drill Ø7 mm, 40 mm deep.

STEP 4 **Screw the lamp to the surface**

Fix the lamp to the wall or ceiling with the screws, then adjust the angle (up to 90°).

SAFETY NOTICE:

- Installation must be done by a professional electrician only; non-professionals must not install, disassemble or connect wires (high voltage).
- If the power cable or the housing is damaged, the product must not be used.
- Use the light out of its package and check it for transport damage before installation.
- Never cover the luminaire and keep it away from open flames and external heat sources.
- Avoid looking directly into the LED beam, especially for extended periods. Do not shine the light in anyone's eyes.
- Maintenance by trained professionals only. Unauthorised disassembly may void the after-sales service.
- After its service life the product needs an inspection or special treatment for disposal.
