USER MANUAL | HOW TO USE

STEP 1 **Unpack and check**

Take the tube out of the packaging and check it for damage. If any damage is visible, do not install or use it.

STEP 2 **Turn off the power**

Switch off the mains supply before fitting or replacing a tube. Installation must be done by a qualified person.

STEP 3 **Fit the tube**

Insert the G13 pins into the sockets of the fixture and turn the tube until it is held securely.

STEP 4 **Place the starter**

Place the supplied starter in the starter socket of the fixture.

STEP 5 **Turn on the power**

Switch on the mains supply. The tube is non-dimmable: do not use it with a dimmer.

STEP 6 **Maintenance**

Replace a damaged tube immediately. Dispose of the tube according to local regulations for electrical waste.

SAFETY NOTICE:

- Installation must be done by a qualified person only; always switch off the mains supply first.
- If the tube or its pins are damaged, the product must not be used.
- The tube is non-dimmable and must not be used with dimmers.
- Avoid looking directly into the LEDs for extended periods. Do not shine the light in anyone's eyes.
- Keep the tube and packaging material away from children and pets.
- Do not disassemble or modify the tube.
